

Wireless Optical Dissolved Oxygen Metal Guard

PS-3604

Introduction

The metal guard is designed to protect the Wireless Optical Dissolved Oxygen sensor cap. It also enables the probe to sink more rapidly when the probe is immersed in water. A carabiner is included to attach the included 3-meter rope to the sensor.

To install the guard

1. Remove the rubber boot from the sensor probe.
2. Put the probe of the sensor into the metal guard.
3. Turn the metal guard until snug-tight.

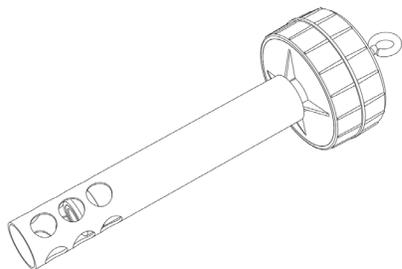

Figure 1. Wireless Optical Dissolved Oxygen sensor with the metal guard installed.

To attach the rope

1. Turn the carabiner nut to open the carabiner.
2. Attach the carabiner to the rope.
3. Attach the carabiner to the eye bolt on the transparent cover.
4. Turn the nut to close the carabiner.

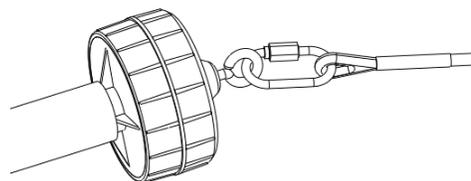

Figure 2. Carabiner attached to the transparent cover eye bolt on the Wireless Optical Dissolved Oxygen sensor.
