

MASTER MATERIALS AND EQUIPMENT LIST: NON-HOUSEHOLD CONSUMABLE MATERIALS

Items available from PASCO include a part number. The quantity indicated is the yearlong quantity per student group unless otherwise indicated with an asterisk (*). Quantities with an asterisk may represent yearlong quantities for several classes of students working in pairs, depending on class size. The activities may also require protective gear for each student (for example, safety goggles, gloves, apron, or lab coat). Protective gear is not included in this list.

Teachers can conduct some lab activities with sensors and probes other than those listed here. For assistance with substituting compatible sensors and probes for a lab activity, contact PASCO Technical Support (800-772-8700 inside the United States or <http://www.pasco.com/support>).
