Wave Driver Post (2) Installation Instructions

Introduction

The WA-9870 Wave Driver Post provides a set of two posts to be glued to any 5 1/4-inch speakers as indicated in Figure 1.

Equipment required but not included:

- Glue; preferably RTV (black or clear)

Assembling the Plumb Bob

1. Carefully draw an even bead of RTV around the internal perimeter of the speaker.
2. Allow the RTV to dry according to manufacturer's recommendations before setting the post in place. Assure that the seal around the post is complete.
